

## What is the NFRC?

The National Fenestration Rating Council (NFRC) is a nonprofit, public/private organization created by the window, door, and skylight industry. It is composed of manufacturers, suppliers, builders, architects and designers, specifiers, code officials, utilities, and government agencies.

	<b>World's Best Window Co.</b> Millennium 2000+ Vinyl-Clad Wood Frame Double Glazing • Argon Fill • Low E Product Type: Vertical Slider	
<b>ENERGY PERFORMANCE RATINGS</b>		
U-Factor (U.S./I-P)		Solar Heat Gain Coefficient
<b>0.35</b>		<b>0.32</b>
<b>ADDITIONAL PERFORMANCE RATINGS</b>		
Visible Transmittance		Air Leakage (U.S./I-P)
<b>0.51</b>		<b>0.2</b>
Condensation Resistance		_____
<b>51</b>		
<small>Manufacturer stipulates that these ratings conform to applicable NFRC procedures for determining whole product performance. NFRC ratings are determined for a fixed set of environmental conditions and a specific product size. Consult manufacturer's literature for other product performance information. <a href="http://www.nfrc.org">www.nfrc.org</a></small>		

The NFRC label provides a reliable way to determine window energy properties.

The NFRC has developed a window energy rating system based on whole product performance.

The NFRC label lists window energy properties so builders and consumers can compare products. The NFRC label appears on windows, doors, and skylights verified to the NFRC standards. The label gives ratings for

U-Factor, Solar Heat Gain Coefficient (SHGC), Visible Light Transmittance (VT), Air Leakage (AL), and Condensation Resistance (CR).
